I am an aspiring Product Designer with 6+ years of sales experience and 2 years in client support and project coordination. I leverage my strong communication, problem-solving, and collaborative skills alongside proficiency in Figma, HTML/CSS/JS, and AI design tools. Currently developing my technical capabilities in frontend frameworks while creating user-centered digital experiences. My diverse background equips me to understand business objectives and user needs, allowing me to design intuitive solutions that deliver both user satisfaction and business value.
